

# Biofuel Express Mobile Stations

Green Fuel Wherever You Need It

## Flexible Refueling with Biofuel Express Mobile Stations!

We proudly introduce our innovative solution for on-the-go fueling - Biofuel Express Mobile Stations. Imagine a fuel station that can be moved anywhere, anytime, maintaining the highest standards of safety and reliability. This is a reality with our mobile stations.

### Mobility as a Key Feature

Biofuel Express Mobile Stations are designed with a focus on mobility. They are crafted to be easily transportable and can be moved around as needed. Whether on a construction site, at events, or other locations with fluctuating fuel needs, our mobile stations are the ideal solution.

### Top-notch Safety

We understand that safety is paramount when it comes to fuel handling. Therefore, our mobile stations are built in compliance with the highest safety standards. You can trust that your fuel management is both efficient and secure.

### Standardized and Easy Installation

Integrated in a standard 20-foot container, our mobile stations are compatible with common container chassis. This standardization simplifies transportation, and the installation is straightforward. It means you can start fueling in no time.

### Facts

- 20-foot container
- 10 m<sup>3</sup> fuel tank
- 2 m<sup>3</sup> AdBlue tank
- Pump and card reader

### Flexibility and Space-saving Solution

One of the unique advantages of our mobile stations is the ability to be stacked with other containers. This allows our mobile stations to integrate seamlessly as part of on-site housing facilities. This means the fuel station can easily adapt to the existing environment without requiring additional space.

### Compliance with Regulations

We want to make it easy for you. With a tank capacity of under 10 m<sup>3</sup>, our mobile stations do not require permits, allowing you to deploy them anywhere without bureaucratic hassles.

### Game changer

Biofuel Express Mobile Stations are not just a solution; they are a game-changer in mobile fuel management. Take control of your fuel consumption and make it as flexible as your needs.
